Subject: Important News

Dear students,

Here are some important notes from the course. V. and O. have been active in the group and working pretty well together.

Vanessa is pregnant and probably busy with her new home, and Soco, as far as I know, is moving back home. No news from Ursula for a time.

Well, this brief message is to ask you some questions. Please answer them accordingly and as soon as possible so that we can move on.

1. Do you plan to continue your studies with BGW?
2. As a student who has been in the online course for sometime, would you be willing to help your tutors with the new comers? How?
3. What have you learned in the course? Have the writing and reading tasks been helpful? In what ways?
4. Have you become a better online learner? Have you learned things that you could apply to your personal/professional life? What?
5. What would you suggest to improve the course?
6. Has the collaborative work been effective to you? Why? Why not?

Best,

Vera (EFI teacher)
